

## Jugendbetreuer/in gesucht?

„VORTEIL! Vereine und Flüchtlinge gemeinsam für die Zukunft des Fußballs“

---

### Information about the course for the participant (English)

#### Description:

This course prepares young refugee people who are interested in football, on a future engagement as a responsible person (adviser) in a football club (linguistically and concerning the contents). The linguistic acquisition turns person easier if one can relate the learning contents to his own area of interest – Football offers a great motivation. The learning is mostly easier and the learning success appears faster.

Theoretical and practical learning units are the basis for the content and methodical modules in such as an adviser course. Thus the conditions are created to be able to introduce themselves with a voluntary engagement in a football club. Afterwards the participants can take part in further qualification measures around football topics, such as a referee or coach for his football club.

#### Targets:

After completion of the course the participants will be able

- to support a coach and to manage training units
- to get a coach license in perspective viewing

Participants will receive a certificate at the end of the course.

#### Conditions to the participation:

- Age: 16 years - 60 years
- Basic knowledge of the German language
- Joy of football
- Interest to get involved in the football club
